2012 SPRING MEETING • March 23-24, 2012

Session Objectives

Physician Hospital Integration and the Interface of Outpatient and Inpatient Psychiatry

At the conclusion of this program, participants will be able to:

Paul S. Altovilla, CHFP

1. Demonstrate an understanding of the importance of the communication and continuity of care necessary between Inpatient and Outpatient treatment settings for effective and consistent clinical treatment.
2. Demonstrate a better understanding of changing relationship between physicians and inpatient facilities. Attendees will demonstrate knowledge of laws and regulations that may impact inpatient and outpatient settings and how those policies affect practice trends.

D. Calloway Whitehead, III

3. Better understand the great current flux in delivering care in the interface of outpatient and inpatient psychiatry and better understand how the psychiatrist will fit in either confining their practice to inpatient or outpatient care or providing care in both settings.

Thomas N. Wise, MD, DLFAPA

4. Understand the variables at play in today's psychiatric service delivery environment.

Pharmacologic Treatment of Depression

Prakash G. Ettigi, MD, DLFAPA

At the conclusion of this program, participants will be able to:

1. Show a common co-occurrence of anxiety and depression, and favorable drug treatments having joint impact.

The Role of Antidepressant Medications in the Treatment of Major Depression:

What is All of the Fuss About?

John P. D. Shemo, MD, DFAPA

At the conclusion of this program, participants will be able to:

1. Understand the basis of the controversy regarding the effectiveness of antidepressant medications.
2. Demonstrate aspects of the evidence base.
3. Review APA practice guideline recommendations regarding the use of antidepressants.

Role of Atypical Antipsychotic Drugs in the Treatment of Anxiety and Mood Disorders

Anand K. Pandurangi, MD, DFAPA

At the conclusion of this program, participants will be able to:

1. Review the mechanism of actions of atypical in non-psychotic disorders. At the end of the session, the learner should know the pharmacological basis of using atypical in non-psychotic disorders.
2. Present current literature and practice patterns in the use of atypical in anxiety, depression and personality disorders. At the end of the session, the learner should be able to compare his/her practice with the scientific evidence and standards of care in prescribing atypical in non-psychotic disorders.
3. Present information on combining atypical with other treatments for non-psychotic disorders for optimal outcomes. At the end of the session, the learner should be able to articulate preferred combinations, including risk and benefits.

Overall Objectives

The 2012 Spring Meeting builds upon the Spring 2009 PSV Program entitled "Transitioning from the CURRENT to the FUTURE Practice of Psychiatry." This program will address issues regarding the current Health Care Reform Act and how it will impact Psychiatry and patient care. Such issues as inpatient vs. outpatient psychiatry, physician hospital integration of outpatient and inpatient psychiatry will also be addressed. Our attendees will be able to question both practicing psychiatrists as well as academic psychiatrists on controversial issues of the future of psychiatry.

Target Audience

This program was developed for Virginia Psychiatrists to address current issues and hot topics in mental health.

Accreditation

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the American Psychiatric Association (APA) and the Psychiatric Society of Virginia (PSV). The APA is accredited by the ACCME to provide continuing medical education for physicians.

Designation

The American Psychiatric Association designates this live activity for a maximum of 4.75 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.
